## Software Developer

### Job Summary:

The Software Developer will work closely with the entire development team to design, develop, enhance and support our various platforms. The individual will follow TaxSlayer design methodology and prepare design documents. The developer will focus on new product development, system enhancements, and system maintenance projects as dictated by strategic business initiatives.

### Principal Responsibilities:

- Develop/modify code per the approved program design and new tax year changes
- Collaborate with developers on design and participate in design reviews
- Author and/or maintain technical documentation on all new and modified systems
- Propose and implement program enhancements that will improve performance and reliability
- Adding new state programs as needed to support new forms or types of returns
- Assist other programmers as needed to deliver TaxSlayer Pro in a timely manner
- Support existing systems to ensure integrity and availability of the production systems
- Maintain systems utilizing the required technologies
- Multi-task between small and large projects either individually or as part of a team
- Work with all popular web browsers
- Strong understanding of object-oriented design and its implementation in the .NET CLR
- Setup and configure server products like Windows Server, SQL Server, and IIS are helpful
- Knowledge of UML, design patterns, software architecture, and n-tier design
- Cross-sell internal products or services to other divisions within the company
- Works with IT to optimize system resource utilization
- Other job duties as assigned

### Knowledge, Skills and Abilities:

A bachelor's degree in Computer Science or related degree is required with 2+ years of development experience. Strong programming skills in various languages such as VB.Net, C# (Sharp), SQL Server, TSQL, Web Services, AJAX, JavaScript, XML, XSLT, and CSS are essential. Strong communication skills are critical to gather requirements, communicate alternatives, risks, and technical design to a team.

To apply, candidates should email their cover letter and resume to [hr@taxslayer.com](mailto:hr@taxslayer.com).

## **Company Information**

Growing out of an established firm with a solid reputation and over 40 years in the Tax Preparation business, TaxSlayer has the full expertise of a professional tax service behind it. TaxSlayer is proud to assist you in preparing and e-Filing your taxes.

The TaxSlayer Mission is... ***To provide a quality product, exceptional customer service, while providing our fellow employees with an enriched and financially rewarding career.***

## **The TaxSlayer Story**

Our Professional Tax Package, TaxSlayer Pro was introduced to professional tax practitioners in 1992. Starting in 1998, we used the basic technology from our professional package to develop our individual version for online preparation and e-Filing.

Our tax preparation software has been used to complete millions of returns over the past decade. Our aim is to provide you with the highest quality program and online technical support. Our TaxSlayer Individual program is a fully featured tax preparation program that is designed for you, the individual taxpayer. This program provides all the forms, calculations and communication links to allow you to prepare and e-File your tax return electronically with the IRS.
